Harmonized our technology with customer's demand,
Multifunctional Hand Dryer - **AIR TOWEL**

KTM Series

Hygienic suggestion of drying your hands at high- speed after washing

Drying your hands at high speed after washing is a new habit for clean and smart modern people. High power Air Towel quickly dries your hands, fingers and wrists with powerful warm wind and ventilator for the speed of 140m/sec. This is perfect for various locations such as restaurants, hotels and public facilities, etc. We recommend installing a sterilizing light and ozone lamp on Air Towel for the use of hygiene related facilities.

Super slim design

Maximum wind speed : 140m/sec

Flat-surfaced water container makes cleaning easier

Material of the body : Nonflammable ABS and antibacterial material used

Burglarproof system installed

Auto door interlocking with Air Towel installed
